

Ideal Policy Maker

Who decide policy for citizens in different regions, geographies, countries ?

Politicians, Government Administrative Officers, Citizen Representative in different regions in a country play important role in policy drafting, decision making. In every country across the globe basic structure of society is almost similar. Ideal politicians take decisions which are good for citizens. In India Yogi Adityanath Chief Minister of Uttar Pradesh is known for decision making, no one is hundred percent perfect & Yogi Adityanath is also not perfect, he also made mistakes but most of his decisions are for social good, he is one of the ideal Chief Minister in India. Recently Mahakumbh is organised in UP which is one of the largest godly gathering, symbol of faith in god & karma chakra. Like some other ideal states of India different states are planning to promote SHG Women for promoting sustainable community business, cut short low quality NGO dependent mid-day meal in schools & identifying channels to assure availability of hygienic nutritious food across the states for children in schools where mid day meal delivery is essential, cutting down tobacco, liquor production - sale across country & identifying sustainable sources of generating revenue, making even weakest citizen super strong & atmanirbhar for atmanirbhar bharat, concept of low cost/free education – ending seat selling education mafia (exam paper leak), safeguarding cows & promoting cow centric small scale industries, promoting other large industries backed by the idea of waste control – environment & sustainable development, promoting law & order in different regions of the state, availability of police staff or verified digital police (urban/rural citizens can file FIR online & e-meet police officials on video call if needed to escalate the complaint) across the state, reducing culture of live-in relationship since many cities & states witnessing girls below 18 years getting pregnant & then refusal from male (UCC laws by Uttarakhand Government is good step). Agriculture online meet – every month concerned government state heads should virtually or personally meet farmers & try to solve their issues at ground level – CM of every state must also be more responsible, they must not push citizen protest towards Central Government. Ideal politicians are not deaf, not blind, not corrupt – ideal politicians need to be citizen friendly, good listener, reachable, ethical, honest, unbiased, humble. Shivraj Singh former CM of Madhya Pradesh remain extremely popular, citizen friendly CM at the same time very much reachable to common citizens and CM Dr.Mohan Yadav is pushing things in extremely positive manner & working to accelerate sustainable development with strong law & order, strict action against corrupt people whomsoever they are at any position in the state – government, non government, industry, politics. CM Chandrababu Naidu is known for his legacy of helping weakest citizens & his cabinet ministers are now understanding things more seriously & pushing complete transformation in the state to serve common citizens, solve their problems, promote good values, culture of education in entire state to make sure every citizen of state must be part of Atmanirbhar Bharat. CM Tamil Nadu, CM Assam, CM Karnataka, CM Haryana, CM Odisha, CM Telangana, CM Kerala are pushing law & order which is good for entire state, promoting culture of discipline & encouraging citizens to follow rules & regulations of the government & societal norms, reducing crime, maintaining law & order for sustainable development. In some states ministers are still blind & they are very corrupt, paralysed, unable to take decisions & unable to understand meaning of law & order. Some of the states are taking highly citizen centric steps focused on increasing the responsibilities of Cabinet Ministers which is considered very positive, it will further enable every minister to enhance their report card, what promises they have made to citizens of their region, how much dedicated they are towards resolving the issues of common citizens, what facilities, growth rate, education rate, crime rate, employment rate is in their area to promote concept of atmanirbhar bharat & good governance.

Detailed version of this white paper is available for industry organisations, government departments & ministries. It is created by the joint efforts of SC, HC Judge, SC HC Advocate, Editor Aajtak News.
